BLOOMS SOLUTIONS

Deployment & VPS Hosting Quotation

Prepared for: R.F. Electrotech

1. Project Overview

This quotation covers the migration, deployment, server configuration, database setup, domain configuration, and ongoing server support for the existing web application. The application is currently deployed on the free Vercel platform and is planned to be migrated to a Hostinger VPS environment.

2. Stakeholders

Stakeholder	Organization	Responsibility
Client	R.F. Electrotech	Project ownership, requirements, approvals and business inputs
Technology / Deployment Partner	Blooms Solutions	Application deployment, VPS setup, migration, configuration and technical support

3. Application Technology & Architecture

Frontend / Application	React / Next.js
Database	PostgreSQL
Deployment	Hostinger VPS
Current Hosting	Free Vercel deployment
Migration	Application code and PostgreSQL database migration to VPS

4. Security & Server Configuration

- Secure VPS configuration and application deployment practices.
- SSL certificate configuration is included at no additional charge (SSL certificate cost: Free).
- Basic firewall, access-control and server-hardening configuration.
- Secure PostgreSQL database setup with restricted access.
- Environment variables and application secrets will be configured outside publicly accessible source code.
- Server and application configuration will follow standard deployment security practices.

5. Scope of Work

- Migration from the current free Vercel deployment to Hostinger VPS.
- Application code deployment and server configuration.
- React / Next.js application build and production deployment.
- PostgreSQL database migration and setup on the VPS.
- Domain configuration and DNS setup.
- SSL configuration (Free).
- Basic server security and application configuration.
- Initial deployment verification and production readiness checks.
- Server support included as described in the pricing section.

6. Pricing & Hosting Plans

The VPS pricing below is based directly on the Hostinger KVM 2 plan pricing shown in the provided screenshots. The amounts are presented before GST, GST at 18%, and the final amount payable including GST.

Plan	VPS Price / Month	GST / Month (18%)	Per Month incl. GST	Total incl. GST
Monthly	₹1,299.00	₹272.79	₹1,571.79	**₹1,571.79**
12 Months	₹929.00	₹195.09	₹1,124.09	**₹13,489.08**
24 Months	₹799.00	₹167.79	₹966.79	**₹23,202.96**

Other Charges: Domain: ₹1,000. SSL: Free. Server support: Free.

Hostinger reference from provided screenshots: Monthly ₹1,299 + GST ₹272.79 = ₹1,571.79; 12 months ₹11,148 + GST ₹2,341.08 = ₹13,489.08; 24 months ₹19,176 + GST ₹4,026.96 = ₹23,202.96.

7. One-Time Deployment & Domain Charges

Item	Cost	Remarks
Deployment & VPS Migration	₹7,000	One-time
Domain	₹1,000	As requested
SSL	Free	Included
Server Support	Free	Included

8. Timeline & Current Status

Estimated Timeline: 2 working days for migration and deployment, subject to access and DNS availability.

Current Status: Application is currently deployed on the free Vercel platform; migration of the application code and database to the VPS is planned/in progress.

9. Notes & Terms

- Server hosting charges are based on the selected hosting plan and are payable according to the selected billing period.
- GST is calculated at 18% for the pricing illustration above.
- Domain pricing is ₹1,000 as specified and may be subject to renewal pricing in subsequent years.
- SSL and server support are included at no additional charge within the stated scope.
- Any requirements, changes, additional development, troubleshooting, or effort outside the above scope will be charged separately based on the additional work involved.
