ERP System — Login Credentials

RF ELECTRO TECH | Admin, Management & Stage Operator Accounts

Purpose: Master login list for ERP go-live & user access setup
Date: September 2026
Total Accounts: 5 Admin/Management + 20 Stage Operator = 25 accounts

⚠ CONFIDENTIAL — This document contains live system PINs. Share only with authorized personnel and store securely. Note: sequential 4-digit PINs (1001-1005, 2001-2020) are easy to guess — consider enabling a PIN-attempt lockout in the ERP and rotating these before go-live.

1. Admin & Management Accounts

Role	Email / Login ID	PIN	Access Level
Super Admin	admin@rfelectro.com	1001	Full ERP & System Settings
Production Manager	production@rfelectro.com	1002	POs, Job Cards, Flow & Planning
Quality Inspector	quality@rfelectro.com	1003	In-process QC, Approvals, Rejections
Dispatch Manager	dispatch@rfelectro.com	1004	Finished Goods, Packing & Gate Pass
Production Planner	planner@rfelectro.com	1005	Production Scheduling & Planning

2. Manufacturing Stage Operator Accounts (20)

Each manufacturing stage has its own login, so operators see only their stage's tasks and job cards. PINs follow a logical sequence (2001-2020) matching the stage number.

#	Stage Name	Code	Email / Login ID	PIN
1	**SHEARING**	SHR	stage01.shearing@rfelectro.com	2001
2	**DRILLING**	DRL	stage02.drilling@rfelectro.com	2002
3	**DRL-QC**	DRL-QC	stage03.drlqc@rfelectro.com	2003
4	**DML**	DML	stage04.dml@rfelectro.com	2004
5	**PIT**	PIT	stage05.pit@rfelectro.com	2005
6	**PIT-QC**	PIT-QC	stage06.pitqc@rfelectro.com	2006
7	**PLATING**	PLT	stage07.plating@rfelectro.com	2007
8	**ETCHING**	ETC	stage08.etching@rfelectro.com	2008
9	**PREMASK-QC / AOI**	AOI	stage09.aoi@rfelectro.com	2009
10	**PISM**	PISM	stage10.pism@rfelectro.com	2010

#	Stage Name	Code	Email / Login ID	PIN
11	**PISM-QC**	PISM-QC	stage11.pismqc@rfelectro.com	2011
12	**LEGEND PRINT**	LGD	stage12.legend@rfelectro.com	2012
13	**HASL**	HASL	stage13.hasl@rfelectro.com	2013
14	**HASL-QC**	HASL-QC	stage14.haslqc@rfelectro.com	2014
15	**ROUTING**	RTE	stage15.routing@rfelectro.com	2015
16	**VG (V-Grooving)**	VG	stage16.vg@rfelectro.com	2016
17	**BBT (E-Test)**	BBT	stage17.bbt@rfelectro.com	2017
18	**FQC (AI)**	FQC	stage18.fqc@rfelectro.com	2018
19	**PDI-AQL**	PDI	stage19.pdi@rfelectro.com	2019
20	**PACKING**	PKG	stage20.packing@rfelectro.com	2020

Recommendation: 4-digit sequential PINs are convenient for factory-floor use but are easy to guess. Consider pairing each PIN with a physical login (badge/QR scan) or IP/device restriction at each workstation, and enable a lockout after a few failed attempts, so a guessed PIN alone can't grant access.
